PROGRAMMATIC

Reach your audience with relevant ad messages when they're actively looking on desktops, laptops, tablets, and smartphones.

Search Targeting

Puts your message in front of people who are actively searching for your products & services. As users perform searches across the web, we collect that data and add the users to a custom audience group that we target with your ads.

Site Retargeting

Puts your ad in front of people who already know you. Users visit your website but 97% of site visitors will leave without taking any action. We bring them back by showing your ad while users browse the internet and remind them of your brand and to come back when they are ready to buy.

Contextual Targeting

Puts your ad in front of people viewing content relevant to what you offer.

As users browse the web – consuming content – we collect data associated with that content. Based on the keywords and the category, we show your ad to those who are reading about topics relevant to your products and services.

SPONSORED CONTENT

Content marketing, branded content, sponsored content.

There's a reason there are a variety of ways it's referred to, and all of them buzzworthy. Sponsored content has come a long way since the days of advertorial.

Sponsored can be crafted to meet the following objectives:

- Tell your brand's story
- Share time-driven initiatives
- Boost sales
- Provide 'how-to' guides (considering Google search for this format)

Your sponsored article can be written as an editorial narrative, in an interview style, as an interactive or a listicle. Sponsored can also be an effective element in an integrated marketing campaign.

Premium sponsored content leverages the trust of the media brand for advertiser benefit. This means that the content meets Canadian Press guidelines to ensure the story is reflective of journalistic standards. Any submitted content will be reviewed and edited to achieve this, or we can assign one of our journalists to tell your story.
