

Longmont Public Forum presents

The Science of Climate Disruption

Tuesday > 4.30.19 > 6:30-8:45pm

Longmont Public Library

*Learn what the latest research say about the
impacts of human activity on our ecosystem.*

Featured speakers:

- **Dr. Pieter Tans**, Senior Atmospheric Climate Chemist at NOAA; Lead Scientist, Global Greenhouse Gas Reference Network
- **W. Tad Pfeffer**, Fellow, Professor, INSTAAR and Dept. of Civil, Environmental, Architectural Engineering, CU Boulder
- **CU Professor Mark Serreze**, National Snow and Ice Data Center Director; CIRES Fellow, Author of *Brave New Arctic: The Untold Story of the Melting North*
- **Dr. Christy McCain**, Assoc. Prof. & Curator of Vertebrates, Dept. of Ecology & Evolutionary Biology, CU Boulder: How animals are responding to climate change
