PROJECT DESCRIPTION

This project will improve bicycle transportation modes through the addition of bike lanes on 9th Avenue from Airport Road to Hover Street bike lanes will be non-buffered with a short buffered section between Wade Road and Hayden Court. Minor widening of 9th Avenue is required between Iron Court and Wade Road to support the bike lanes. This entire section of 9th Avenue will receive an asphalt overlay. Radar speed display signs will be installed for both eastbound 9th Avenue traffic. Construction is scheduled to start summer 2020.
