This year is going to be lucky and also perfect to focus on relationships, whether we are talking about friendships or love.

Under the Chinese signs, the Ox is very hardworking and methodical. 2021 is going to be a year when work will get rewarded, and those zodiac signs who are lucky in terms of money this year will be the ones that will make a considerable effort. The Yin energy, specific to the Chinese sign of Ox, will be quite poignant. This is going to be a year when we will fully feel the weight of our responsibilities, a year when it is necessary to double our efforts to accomplish anything at all.

The Metal Ox year is also great for making order in the family life. After all, if the family life is peaceful, everything gets solved!

Thus, 2021 is a year when all the problems get solved with discipline. A lot of discipline! Obviously, with an extra effort from us in organizing our time.

Ox - Personality and Characteristics

Tough, honest, faithful...

Most people with Chinese Ox sign hold conservative and traditionalistic personalities. They impress people with an image of endurance, honesty and diligence. They seldom fear for any hardships or difficulties. They are persistent but stubborn, cautious but hesitant, moody and quick-tempered. Napoleon was typical in many ways but with certain very noticeable failings with the sign of the Ox.

Strengths

Persistent, cautious, patient...
Ox personality is slow in action, but quite persistent. Once they make decisions, they will hold on straight to the end. Cautious and careful, before taking actions, they will take a long time for consideration. Stability is another characteristic in their personality, for they are hardly ever affected by the environment changes and others' judgment. With strong faith and willpower, they can always realize their goals. Honest and patient, they are reliable companions and friends. Besides, they are independent and industrious, which makes them to achieve something easily. When handling cases, they can arrange everything orderly. They give much care and attention to family, being filial to parents and tender to brothers and sisters. They are peace lovers, and treat people equally.

Weaknesses

Stubborn, tardy, fractious...
One of the weaknesses of Ox personality is their stubbornness, for they can hardly change their minds to accept the advice of others. They usually do things based on their own slow pace. The lack of efficiency will result in an average outcome. They seem to be moody, actually fractious, obstructive and irritable. Due to

their characteristic stiffness, they cannot react correctly according to outside changes. Remaining in a passive situation, they are tending to be loose and clumsy. In relationships, they have no sense of romance and no skill to please their lovers. Their speech is also blunt; they can be unaccustomed to speaking in public, which will make them quite nervous.

Career

Oxen's career develops stably and smoothly. With persistence and willpower, they can remain highly-spirited in a tough situation which enables them to reap success. By remaining in the same occupation long term, they are likely to get promotion and a handsome salary; as their capability will be recognized by colleagues and bosses alike. If starting a business, their talent will be used to the full. All in all, they can accomplish something by their hard work. However, they need to be aware of others' jealousy, and learn to be more flexible in response to these disadvantages.

Best Jobs for Oxen

They are sensitive, emotional, tender and merciful in Ox personality, and full of instinct. They do poorly in work related to logics and science, and they find it hard to work in a noisy environment or somewhere with strict rules. They are born with a sense of art in nature, so jobs related to art, literature, and design are good for them. Suitable Jobs: doctor, lawyer, writer, teacher, socialist, entrepreneur, or office assistant.

Wealth

Well-to-do life, weak awareness of money...
In Oxen's lifetime, their economic status is good, and most of the income is from hard working. They can

hardly become tycoon or make a fortune in a short time. They may have some savings, which supports them to lead a well-to-do life. Actually, they have weak awareness in money matters, and they are inclined to form a habit of over-spending. Expenditure outweighs the income, and they sometimes suffer from financial shortage. They should never show up in a casino, for they have no luck in gambling.

Love and Relationships

Conservative, faithful, suspicious...

As it mentioned before, oxen are a group of people who lack romance, so people falling in love with them seldom get surprises. They are also awkward with words, and not good at flirting. Seeming to be cool and indifferent, they have an ardent inner side. When coming across the people they admire, they will get actively close to them. Their efforts in love will be not in vain, and they usually hope their partner feels the same way as they do in return. The problems of relationships usually come from their over tenderness to the opposite sex and suspicion about the other's loyalty.

Health

Stomach disease, light diet...

Their spleen functions well, helping to digest food and arouse the appetite. If they can go on a diet and control their excessive desire for food, they will live a long life and maintain a dynamic condition. However, there will be some stomach problems. If they eat a lot of greasy, sour and sweet food, they may produce an excess of saliva, which may give rise to other diseases. They are recommended to keep to a light diet and eat plenty of vegetables and fruits.

Seized by a vortex of passion and emotions, the impulsive and naughty Monkey might not succeed in choosing the right partner for a lasting relationship. A bit of advice from the astrologer: learn to be more romantic, more involved in the relationship with your partner, more attentive to his/her needs, and a bit more tender! A simple gesture or a single beautiful word can make miracles!

The people born under the Goat sign must resist the impulse to spend too much money to please their loved ones, hoping they will obtain a state of romantic harmony. Their most important lesson in 2021 is that money can't buy true love.

Health

The Tigers and Monkeys will not encounter serious health issues this year. Even if some colds or small issues will occur, they will solve them as fast as possible. Moreover, any pre-existing conditions will register a major improvement.

Dragons will be quite agitated, which is why they might get exhausted many times during the year. A deteriorated state of health is only one step away, so they need to be extremely careful. The extra hours over the work schedule but also the sleepless night can be some of the main causes.
