

# MAKE A PLAN:

Talk to your family/household, and make a plan about what you will do in the event of an evacuation. Every household should have an emergency plan in place and practice it regularly; including identifying an out-of-area contact and arranging a meeting place. Being prepared is the most important step you can take right now.

## OUT-OF-AREA EMERGENCY CONTACT

NAME

CITY/PROVINCE

PHONE

## HOUSEHOLD MEETING PLACE

Designate a specific meeting spot in case you're separated from household members:

## IN-AREA EMERGENCY CONTACT

A designated person to collect your children from school or daycare, or collect your pet if you can't:

NAME

CITY/PROVINCE

## EVACUATION STAGES

In B.C. a three-stage evacuation process is used for evacuations:

### EVACUATION ALERT - BE READY

This is the time to get prepared to leave your home on short notice. An evacuation alert means that an **evacuation is possible**.

### EVACUATION ORDER - LEAVE NOW

All residents and visitors must follow direction from local emergency officials and **leave Whistler when directed**.

### EVACUATION LIFTED - RETURN

You are allowed to return home. **Follow the instructions of emergency officials** for when and how to return home.

## UTILITIES

Make notes on how/where to turn off household utilities if asked by emergency officials:

WATER

ELECTRICITY

GAS

# MAKE A KIT:

When an emergency hits, there won't be time to collect emergency supplies.

Do you have emergency kits for your home, office and vehicle?

They should all contain food, fresh water, medication and supplies for you and your family/household to cope **at least three days** or more without outside assistance.

## WHAT ARE YOU FORGETTING?

Make a list of things specific to your household that you don't want to forget in an emergency:
